We hereby pledge ourselves to use all our influence and exertions in returning to office such men as will support the principles of this association.

Mr. Cushing, from the Montgomery Benevolent Association, was opposed to any such action as that indicated by the resolution and declaration. He was opposed to a high tariff. It bore hard on the poor in many ways. It made their coal, a most important matter to them, much dearer than it would be were there no duty. He also referred to the brick business to show that a tariff was detrimental to wor ing men. His society would not sanction him in staying in that meeting, as it was evidently taking political ground.

Messrs. Invino and Sullavan spoke in favor of the action proposed by the mover of the resolution.

Mr. WALFORD deuled that he desired the meeting to take grocod in favor of any political party. He was not a voter and would not be these three years; but he chought this action would be the means of striking a low, at the power of England such as it never had before, for it is on this market she depends. Suppose the number of those who will sign this call were but few; by get the right principles and it will spread like slidfire through the country. The Auti-Corn Law league began with two men and ended with six and seem millions, and simally succeeded in overturning the sorn laws. He was assured that there were capitalists in this Purs at Cost.—Victorines, Copes and Cuffs, of every description, also a large lot of sleigh robes, selling off at cost, at White's. This was a whig movement, and while he was in favor of buying only American productions, (hear, hear,) he would not consent to countenance any action so decidedly political. He would not stiff the same of the first start leads with only two dissecting voices. Remarks were made by other speakers as to the best course to pursue, whether to hold another general meeting at the Broadway Treernsele or to have a ward meeting.

Pain, Unhappiness.—These proceed in a majority of cases from physical causes. Never disregard these warniess; you cannot have pain, or a sense of approaching evil, but from the presence of those humors in the bedy, which purgation is sure to remove. Sadden death, long attaces of sickness, are prevented by these means. When you cannot sleep well, when your head feels heavy, or you have pain in any park, but especially in the temples, with throbbing, fly at once to BRADREH'HS PILLS.

Take from three to six—they will be sure to do you good. The next day, even, you will feel a new creature. Should these warnings have remained some time unheeded, rheumatisms, fevers, small pox consumption, approplexies, constreenes billions aftections, jaundice, dropsy, piles, or some other form of ducase, will present itself; but even then, no medicine is equal to Brandreth's pills. Use them, in these cases, according as the symptoms may seem to require; they will cure sooner than all the medicine of the drug store.

In order to know truth from conjecture, we must be guided by the light of experience. One hundred and three years have proved Brandreth's pills and the human bedy are mutually adapted one for the other; they entirely regenerate and purify the blood; they are sure to do good, because they only take out of the body what is burtful. I can refer to those who have used them over seventy years.

It gives us sincere pleasure to announce today to the readers of the Herald. the re-opening of the

leading Fatter and furrier of Canai street, at his former

say that never, at this time of the year, an equally
large and rich variety of ladies' and children's fancy

possible that the same quality goods could be offered at
more reasonable prices. To the gentlemen we recommend an happention of his assortment of silk, beaver and
